PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none">• Author didn't mention the type of formulation prepared by using mint and green tea. Is it tea or any other beverage? Kindly make it clear.• Author focus on free radical scavenging activity by DPPH. This activity depends on total phenols and total flavonoids present in both mint and green tea. So, their analysis should be added in the manuscript.• Author mention the green synthesis technology and nanotechnology in introduction. What is the objective of adding them? The present work is not on green synthesis and nanotechnology. So, make it concise and to the point.• Mention the equipment used for DPPH radical scavenging activity?• Author should also explain the final use of this herbal formulation?	
Minor REVISION comments	Author should focus on grammer.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
