

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_77942
Title of the Manuscript:	CYTOTOXIC EFFECT OF ANTIBACTERIAL ACTIVITY OF ETHANOLIC EXTRACT OF CASSIA AURICULATA
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The article is presented as an experimental investigation conducted to determine the antimicrobial efficacy of a natural extract. The authors have demonstrated this antimicrobial efficacy in general, but have not delved into what might be the components of the extract that actually have an antimicrobial effect. In itself, the survey has its own significance, even if modest and as such it can still be published as a contribution to increase scientific knowledge in an area that is still little known.	
Minor REVISION comments	The article is written with several typos and with little care as regards the editorial rules of writing. I have made my own revision of the writing but I urge the Authors to take better care of the spelling of the writing.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
