### **PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	In my opinion, the paper is good on the whole. Generally speaking, the content of this paper is well written and the author has taken much effort on this topic. To be specific, the purpose and significance of the study are clearly stated. Besides, the study is presented explicitly by the tables and the author gives a comprehensive analysis in the discussion. However, there are still some parts that need to be modified in the paper. The author is advised to make some revisions to so that the paper will be better.	
<b>Minor</b> REVISION comments	<ul style="list-style-type: none"><li>Although the objective is clear (to determine the The effect of obesity, hypertension and diabetes on health-related quality of life among the elderly in the Eastern Province of Saudi Arabia there manuscript is too long for the reader. In addition, the English language is not standard and in some parts enormously difficult to understand what authors are trying to say. recommendations are not mention.</li></ul>	
<b>Optional/General</b> comments
