

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_77990
Title of the Manuscript:	SCULPTING IN DENTISTRY – REQUIREMENTS, METHODS AND LIMITATIONS IN AESTHETIC DENTISTRY: A MINIREVIEW
Type of the Article	Minireview Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Interesting article about Role of sculpting in esthetic dentistr	
Minor REVISION comments	Minor typographical error 5. LIMITATIONS Perfectionism in the art of manipulation and sculpting of materials in their plastic/moldable phase requires knowledge on the material aspects as well as the limitations of different materials. One of the major disadvantage of resin based materials, polymerization shrinkage, cannot be eliminated completely although various techniques and protocols have been suggested in the manipulation of, and restorative procedures for these materials to minimize the shrinkage and associated stresses ⁸	
Optional/General comments	It is a need to know more about various sculpting procedures in dentistry – this review is recommended.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
