PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The IOP is affected by factors like- Time of measurement, Glucemic control – HbA1C level, Heart rate, resp rate, Fluid intake and drug intake or topical application. The current study does not mention these among the case and control groups . It could lead to bias in findings . These facts to be considered before drawing any inferences	
Minor REVISION comments	Syntax and grammar . Discussion parts needs to be elaborated more.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
