PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	In title Covid recovered is not correct. It should be COVID-19 OR SARS CoV-2. In complete manuscript similar corrections are required.	
<u>Minor</u> REVISION comments	Authors should address following points--- 1. In all tables units must be included, 2. The duration of recovery for all patients should be uniform and its mean value should be declared, 3. Authors claim that WBC was decreased, is not convincing, in COVID-19 case hyperactivity of immune system was serious problem viz. Cytokine storm. It should be properly explained and supported by literatures with proper discussion, 4. Authors claim that Platelet count was found increased, is not convincing. In several cases decreasing platelet count was challenge for physician across the world, this point should also be explained properly with support of literatures. 5. The sample size is improper to conclude any findings.	
<u>Optional/General</u> comments
