PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---|---|
| Compulsory REVISION comments | <ol style="list-style-type: none">1. Total number of cases is rather not representative of pandemic state and therefore all results are not representative!! Increasing number is compulsory to consider (test of reality) for statistics2. Selection criteria are not well described definition of recovery , duration after recovery to get samples, line of treatment and their effects on results ?? are not described | |
| Minor REVISION comments | <ol style="list-style-type: none">1. Abstract is not well presented especially background as well as results2. Units used in description of blood parameters must well mentioned3. Exclusion criteria need to be mentioned4. COVID term had written in different modes throughout text .. which is not acceptable | |
| Optional/General comments | | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|--|---|
| Are there ethical issues in this manuscript? | <i>(If yes, Kindly please write down the ethical issues here in details)</i> | |
