Review Form 1.6

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---|---|
| Compulsory REVISION comments | <p>NOTE: The part to be corrected is colour RED in the article and is indicated with number</p> <ol style="list-style-type: none"> 1. Recent year data reference would be appropriate 2. It would be better if this paragraph is not included in material and method section. This paragraph can be made more briefly and can be added in introduction part. 3. It would be more appropriate if the paragraph is separately written like study design, inclusion, exclusion criteria, sample size, sampling technique etc and further how was the sample size calculated? please explain 4. Was the data collection tool developed by author or was taken from any article if taken from article then should be provided with reference 5. Provide full form before writing abbreviation 6. The result section should be provided data with figures and should be separated and shouldn't be written in single paragraph. Please rewrite result section too 7. The point has been replaced with comma in different data e.g. In Table 1 (50,1 is written. Please check and correct others too 8. From where the data came and how was the prevalence calculated? Please explain 9. What do you mean by they are close? Please rewrite the sentence 10. What do you mean by free and informed consent? please explain | |
| Minor REVISION comments | <ul style="list-style-type: none"> - Font size should be according to guideline - Citation should be according to the guideline, citation should not be repeated, it should follow sequence (i.e. 1,2,3,.....so on) please go through the manuscript and correct all - The language should be uniform. Where is n in the table? Please correct - It would be better if limitation of the study would be added. | |
| Optional/General comments | | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|--|---|
