Compulsory REVISION comments		
Minor REVISION comments	<p>This manuscript is interesting and well-organized. I like to suggest the acceptance of this manuscript with minor revision. I have few points about manuscript. (1) The number of references is very low, it is indicating that authors had not done a detail literature reading. It will be better to cite more related papers. I am suggesting few papers related to current manuscript. 10.1002/poc.3512, 10.1142/S2737416522500016 , 10.1080/10406638.2021.1991392 , 10.1016/j.heliyon.2021.e08186 , (2) Recently, the machine learning is gaining fame in biomaterial and computational field. Machine learning will be an easy and fast method. Authors can discuss this in results and discussion section. I am suggesting few papers for help. 10.1039/D0BM01672A, 10.1039/D1TA04742F.</p>
