

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_78095
Title of the Manuscript:	Abies webbiana mediated Zinc oxide nanoparticles and its anti-inflammatory activity
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	It would be more convincing to run some cell-based assays, to confirm the anti-inflammatory activity of Abies webbiana via showing inhibition of cytokine/COX2 expression from immune or endothelial cells upon inflammatory stimulation.	
Minor REVISION comments	Regarding the safety concern for potential therapeutic development, it would be interesting to perform some cellular toxicity experiments with the functional concentration of Abies webbiana extracts.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
