

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_78192
Title of the Manuscript:	MUCORMYCOSIS WITH CA BREAST
Type of the Article	Case study

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>1.The authors have titled the manuscript as "Mucomycosis with CA breast" – however the manuscript has no case description or case study. The manuscript appears to be a compilation of some literature on CA breast and some literature on mucormycosis. The sections on CA breast and mucormycosis are mixed together (like the paragraph in epidemiology) – and without the case description - there is no connection between the two that is established. A lot of the manuscript is focused on CA Breast and its management which appears to be outside the scope of this topic. The manuscript lacks appropriate references. Some pictures are not original.</p> <p>2. In addition to making the manuscript pertinent and cohesive - the manuscript needs English editing, grammar, and spelling corrections. Each sentence needs to be reviewed for these errors and revised. Many words and adjectives are incorrectly used for e.g, in introduction – the word "pioneering" in "pioneering parasitic disease"; in etiology – the word irresistible in "irresistible fungal infection" etc.</p>	
Minor REVISION comments	<p>Some pictures are not original. They have been taken from the internet. A couple of examples: Breast Cancer Stages, Illustration - Stock Image - F031/7403 - Science Photo Library File:Breast cancer care q1.png - Physiopedia (physio-pedia.com)</p> <p>A paragraph "Hormone therapy" on page 8 – appears to be taken directly from cancer.org - Hormone Therapy for Breast Cancer American Cancer Society It will be helpful to check the rest of the manuscript for these issues as well.</p>	
Optional/General comments
