PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<ol style="list-style-type: none"> 1. Full name of AVBRH, Location/ city/ district/ state? 2. Is the case study report based on a single patient? But in Discussion section 4 patients are mentioned. Why is this ambiguity? 3. Repeat sentence "A number of investigation....carried out." Must be avoided in Present history section. 4. The author mentioned Ultrastructure study in discussion section? Was SEM or TEM performed? 5. Conclusion section should be written afresh 6. List of References is very poorly composed. Please follow a single protocol or the rule entailed by the concerned journal. 7. Has written consent from the concerned patient/ s taken before investigation followed by publication? 	
<u>Minor</u> REVISION comments	Not a single mention of the references in the Introduction and discussion section. The author should compose the manuscript freshly to minimize the above mentioned points.	
<u>Optional/General</u> comments		

Review Form 1.6

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i> Details of methods of the study should be mentioned along with the ethical clearance because this is a therapeutic study involving human subjects.
