PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The authors conducted their study titled " Case Report on Mucormycotic Osteomyelitis of Maxilla ". I would like to draw attention to a few points:</p> <ol style="list-style-type: none">1- Please give reference for the introduction2- Expand the discussion section to include other differential diagnoses3- Please correct the English spelling of the article by a native speaker4- Add new references with the expansion you will make in the discussion section5- Provide an image of the disease if possible	
Minor REVISION comments	<ol style="list-style-type: none">1- Please correct some words in the past medical history section: diabetic mellitus, patient, (Inj) Remdisivir, (inj) Prednisolone (If you know, write the injection dose in mg and in parentheses).2- Try not to use the pronoun my for patient3- "Clining finding" sholud be "clinical findings"4- In the physical examination section, explain the abbreviations GA and GC in parentheses5- Use mm/Hg instead of millimetres of mercury6- "Dignotic assessment" title should be diagnostic assessment7- In the management section, the 3rd option should only be surgery and correct "diabetic mellitus"8- Write the routes of drug administration in parentheses (Tab-inj, ...)9- Write the words mellitus and mucormycosis correctly in the Discussion section.10- Maybe clinic term would be better instead of ward	
Optional/General comments
