

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_78272
Title of the Manuscript:	COVID -19: Etiology, Transmission, Epidemiology, Treatment and Clinical trials
Type of the Article	Minireview Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journaljpri.com/index.php/JPRI/editorial-policy>

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The paper is full of grammatically errors throughout. For example, the abstract should be fleshly written. The section which talks about vaccines is very confusing at best and lacks proper references. The section on other treatment is full of errors and has no references indicated for those possible treatments. The author(s) makes a lot of statements as facts but most of them have no proper reference to be attributed to. The author(s) should find an individual whose English is at an acceptable level to proofread their paper before sending to journals for consideration in the future.	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
