PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Please discuss the time taken for complete correction of the deviated bite, if it is really possible. On placing the Twin occlusal prosthesis, how does the bite come to occlusion as there is no guiding flange provided in this case. Initially, the guiding flange is used for few months and habituating the muscular coordination. Only then, the twin occlusal prosthesis is given, which can be useful. Kindly discuss the same	
Minor REVISION comments		
Optional/General comments	More references can be added with respect to muscular coordination management
