PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	Authors, a simple and quick analytical method have developed to be useful in routine to determine lercanidipine in bulk and in its dosage forms. However, 1- Authors should given a table comparing this new study with similar studies in the literature. 2- In the chromatogram, it is seen that the peak of lercanidipine is very close to the dead time, a little retraction of this peak is important for the analysis to be healthy (up to 30 sec.).	
Optional/General comments
