PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The introduction and presentation of the case is interesting, the pathology itself is not so rare. The description of the pathophysiology is short. Your discussion and conclusion are very short. He is doing the report of a case, in my opinion he would have to enrich with more literature his those previously mentioned	
Minor REVISION comments	It is not specified what type of surgical access is performed on the patient, if it is open or laparoscopic.	
Optional/General comments	The report of case is interesting, but in my opinion the author need to further increase the bibliographic research	

PART 2:
