

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_78432
Title of the Manuscript:	Effect of Cellphone on Quality of Life Among Medical Students; A Cross-sectional Study
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journalpri.com/index.php/JPRI/editorial-policy>

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>It is an interesting topic with a lot of potential. However, it has to be more detailed and the data better organised. The study design is promising, but the results could have been described in more detail and in a more organised manner. For example, one of the tables in the manuscript which includes significant findings have not been labelled and described. The table presents with a lot of promising data which has to be explained properly.</p> <p>I have made some recommendations in the manuscript. In addition, I would suggest that the study is proof read as the quality of English academic writing is poor.</p>	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
