

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_78504
Title of the Manuscript:	Natural versus Chemical Cross linking agents: Effect on Dentin Adhesive Systems.
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journalpri.com/index.php/JPRI/editorial-policy>

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The MS does not indicate how the tooth specimens were held for testing or how the shear bond strength testing was performed. This must be corrected.</p> <p>It is clear what the P value in Table 1 refers to – this should be explained.</p> <p>It might be useful if the coefficients of variation of the mean values were also included in Table 1 to indicate the scatter of the data.</p>	
Minor REVISION comments	Placing tie bars on the histograms in Figure 1 would provide a better indication of the spread of data.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
