PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1- the questionnaire you have used has not been used before. For that reason, you have to perform a validity and reliability test for the questionnaire before using it in the reearch. 2- It would be better if you address an English native speaker to correct all the language mistakes present in the paper. 3- In the Results, the authors declare the present data in the whole sample. Whereas it will give us more demonstrated overview to the results if they study the differences in gender, age and the state (postgraduates, graduates or practitioners) 4- The conclusion section should be more directed toward the aim of the study.	
Minor REVISION comments		
Optional/General comments
