### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journaljamps.com/index.php/JAMPS/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>After each section the authors perspective should be included as a small paragraph. Better to avoid table 1. Include a column for reference in table 3 Add reference for each clinical trials in last column It will be better if the authors can add a table describing pros and cons for each preparation technique under Methods of preparation of NLC and SLN A table describing patents of NLC and SLN can also be included. Future perspectives should be included.</p> <p>Figure 3 is not clear. Please confirm there is no copy right issues for all the figures. If adopted properly cite them with permission from respective publishers.</p>	
<b>Minor</b> REVISION comments	All tables and figures should be cited in the text.	
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
