

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_78655
Title of the Manuscript:	Anti-bacterial efficacy of Probiotics used in provisional polymethyl methacrylate crowns against Porphyromonos gingivalis – an In vitro study
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none">References, which are mentioned here, are almost more than 10-12 years old. Latest references should be added. At least 5-6 key references after 2015.Small typographical errors (incomplete bracket and two full stops somewhere) can be removed. Grammatical errors to be removed. No box is required around the text specifying details/note about the tables or figures and hence, can be removed.Strain explored in probiotic can be specifically mentioned also in terms of their colony forming units (cfu) with their mode of action i.e. function in preventing gingival inflammation- needs to be discussed (or specified in brief) in Discussion. Zone of Inhibition can be supported by other alternative methods i.e. reduction in CFU of the target bacteria.Possible Animal Studies or Future prospectus of this preliminary studies need to be specified to take this probiotic in next level format either in the form of possible medicinal formulations. <p>The present manuscript is about preliminary study on anti-bacterial efficacy of probiotic in preventing gingival inflammation. This manuscript requires minor revision citing recent references and minor corrections. Suggested points can be incorporated. This manuscript can be accepted incorporating above suggestions.</p>	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
