Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Methods, Results and Conclusion related aspects are missing in Abstract.</p> <p>Need and significance of the present work, brief overview of previous works on same subject and their lacunae, accurate hypothesis etc. needs to be clearly described in Introduction section.</p> <p>Review methodology or Materials & Methods section missing in the text.</p> <p>The discussion part or main text (between Introduction and Conclusion sections) is not well formatted.</p> <p>The whole manuscript looks superficial and lacks 'depth'. Sufficient number of references seems to be lacking as it is a review article.</p> <p>The whole manuscript is based on thyroid disorders in children but there is no mention of 'childhood' or 'children' related words in abstract, which may mislead the readers.</p> <p>The major findings could be demonstrated in the form of tables or graphical way for better and quick understanding to readers.</p> <p>The presentation of subject matter, major findings or observations of the review, language etc needs to be improved.</p>	
Minor REVISION comments	<p>It would be nice to divide the discussion section in two parts describing neurological complications of Hypo and hyper thyroidism separately with clear side headings.</p>	
Optional/General comments	<p>One more thorough proof reading is required as there are some grammatical and typographical errors in the manuscript.</p>	

PART 2:
