Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>There is a clear effort done to write the manuscript The topic is not new but worth to be discussed based on its importance on childhood health</p>	
<u>Minor</u> REVISION comments	<p>There few spelling and grammar mistakes repeatedly appeared in the manuscript, it worth to check and correct it. The German language was used in different positions, probably that need to be translated to English as the approved language for publication will be the English language.</p>	
<u>Optional/General</u> comments	<p>The epidemiology is concentrating on the statistics of one country and from one source (police) what about the role of community authorities and social support ? Any statistics come from it ? , what about the other parts of the world ? Is the problem is less severer or more ?</p> <p>I can't see any figure or diagram used to display any data It worth to show some MRI/ CT brain finding in this condition</p> <p>Glutaric aciduria is an inherented disorder and there is a screening test at early age which might help in differential diagnosis of SBS .</p> <p>It important to mention suggestions for how to minimise such devastating experience among children and the impact of children safeguarding on it</p> <p>Much appreciated for the work done and all my best wishes</p>
