Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Write-up is needed for public. But is superficial. Not research article. Author must understand this first. Many statements with data is not having references and is must before publication. Some data need to be verified and confirmed like milk production in India and fortified milk data are same?????????How???</p> <p>before conclusion, the cost involved in fortification of milk, price of per unit milk of fortified vs unfortified, affordability, present govt policy on this aspect all needs to be given before conclusion for making this write up meaningful. Because, now biofortification is the target of UNO to reduce malnutrition. Hence economics and affordability of common people need to be discussed</p>	
Minor REVISION comments	<p>Typographical and alignment suggestion must be included No Table is referred in text.</p>	
Optional/General comments	<p>All corrections are indicated in text and must be included before accepting this paper for publication.</p>	

Review Form 1.6

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
