PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. Authors should justify, why this case report is important? 2. There is mix up of "Patient specific information and Present Medical History" Author should correct it. 3. It is not clear from the write up, how the case was diagnosed/confirmed as malaria and what was the species 4. Authors have mentioned vague statement (medical therapy of malaria) for treatment of malaria. Authors should add what specific antimalarial was used along with dose and duration. 5. English grammar, spelling, and syntax need revision. Many statements are without meaning. Authors should revise the write up with the help from some English writer. 6. Irrelevant statements (Hemoglobin levels were marginally lower, while serum levels were slightly lower) should be deleted. 7. References format should be rechecked 8. Picture for malaria transmission should be deleted. 	
Minor REVISION comments	None	
Optional/General comments	None
