General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>Dear Sir/Madam Researcher</p> <p>The case is good. Please fix the abstract structure, usually the Abstract consists of: Background: general case description and the uniqueness of your case compared to others Objective: state clearly your purpose in presenting a case report as an example of a problem in determining a definite diagnosis, aspects of the success of therapy or aspects of the complexity of the case. Case: a brief summary at a glance starting with the symptoms, results of investigations, the main therapy options that have been carried out. Conclusion: briefly write down the most important part in your opinion for this case, for example the success of therapy or the accuracy of diagnosis</p> <p>Keywords: fill in short words, not too long, which allows readers to easily search online</p> <p>There are several sections that can be combined as one sub-heading title "Case" including: Patient information, Clinical findings , family, and Psychosocial history, Diagnostic and therapy</p> <p>In the Discussion section, please add at least 5 other previous case report articles.</p>	
Optional/General comments	good case for journal acceptance
