PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The study showed various types of Styloid processes in males and females. This issue is very interesting and should be developed further in future research. The paper is well written (but the article needs a typo-grammatical check). Here are the main comments about the paper which need to be considered: <ol style="list-style-type: none">1) Why the data were analyzed statistically by chi square test? Please explain.2) It would be good to present selected characteristic cases in the form of 2D images and 3D reconstruction3) Part of figure 1 is unused, I would ask you to correct this figure	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
