### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

### **PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>Conclusion is not understandable.            Would you please search keywords according PubMed            Do you have any placental pathological tests? umbilical cord blood gas values??            Can you provide any lab test ( for example CRB, procalcitonin, Leukocyte, blood gas values) from patients who had Covid 19 symptoms ?  <b>Out of 18 admitted neonates 40% of babies had some radiological and clinical feature of pneumonia suggesting intra uterine transmission of infection-</b> would you please provide any clinical features of pneumonia if you have it?  <b>to notice 6 women had to undergo LSCS due to severe COVID-19 pneumonia (20)</b> – that was done in your hospital or You this is just link to the literature?</p> <p>I suggest to rewrite manuscript.            All patients infected with Covid 19 should be divided into 2 groups: symptomatic and asymptomatic and all analysis with blood gas test, placental pathist, blood analysis and etc should be provide separately and outcomes as well.</p>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments	<p>I suggest to rewrite manuscript.</p>	

Review Form 1.6
