Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p>	<p>Ashish P Sharma 1, Brian Hondorp 2, Andrey Gaiduchik 3, Nadim Z Baba 4, Jayini Thakker 1, Jared C Inman. Management of Malocclusion after Maxillofacial Trauma. Facial Plast Surg. 2017 Dec;33(6):562-570. doi: 10.1055/s-0037-1608768. Epub 2017 Dec 1.- please change the tyle of your article, this was already used in 2017 see upper. you can be planted of plagiarism</p> <p>The review work should also include the methods used by the authors. They used some date from the database (e.g. PubMed, Google Scholar, etc.) and what period in years has been analyzed. How many publication were found, which were selected and why, which were rejected and why This work is missing _ PRISMA FOLLOW DIAGRAM</p> <p>„However, studies summarizing the evidence regarding the role of prosthetic treatment, orthodontic treatment, and implant-supported rehabilitation for the management of secondary malocclusion after maxillofacial trauma are lacking – not a true see for example: KhaledKhala fWaadKheder at all, The role of prosthetic, orthodontic and implant-supported rehabilitation in the management of secondary malocclusion to maxillofacial trauma- A systematic review. The Saudi Dental Journal Volume 33, Issue 4, May 2021, Pages 177-183</p> <p>It would be good to cite works from recent years, there is only one work from 2019, some 2013-2014.</p> <ul style="list-style-type: none"> - doi: 10.1055/s-0037-1608768. Epub 2017 Dec 1. - doi: 10.1186/s40902-018-0167-z - https://doi.org/10.1111/edt.12673 - https://doi.org/10.1016/j.injury.2020.04.053 - 	
<p>Minor REVISION comments</p>	<p>„jaws are closed.8 Overjet 3 mm"- please explain what mean „8" is it literature position? If yeas according to the number it has to be 4? Or it is mistake – please remove</p> <p>treatment. Displacement during fracture reduction leads to malocclusion that it can result in: an open bite with functional disturbances, reduced posterior facial height and facial asymmetry- please give this paragraph to the previous line. if you are listing several situations, start with a hyphen</p> <p>Crucial factors to a good long-life performance of dental prostheses are strength, intraoral ageing resistance and fatigue resistance-</p> <p>please add more literature study for this paragraph for example: Zbigniew Raszewski, Agnieszka Nowakowska-Toporowska, Joanna Wezgowiec, Danuta Nowakowska, Włodzimierz Wieckiewicz. Influence of silanized silica and silanized feldspar addition on the mechanical behavior of polymethyl methacrylate resin denture teeth, J Prosthet Dent 2020;123:647.e1-e7. Zbigniew Raszewski. Acrylic resins in the CAD/CAM technology: A systematic literature review. Dent Med Probl. 2020;57(4):449–454.</p> <p>Oral rehabilitation is not with fixed prothesis only, about 60-80% of them are removable denture, no information about this kind of rehabilitation at all...</p> <p>Literature in some ref you are using bold numbers for example position 1-21, until 26 and in the rest is</p>	

Review Form 1.6

	<p><i>not bold please make all in the same manner.</i></p> <p><i>References 7 and 8 are the same, please change and cite one.</i></p> <p>7. Joondeph D R, Bloomquist D. Open-bite closure with mandibular osteotomy. Am J Orthod Dentofacial Orthop. 2004;126:296–298. [PubMed] [Google Scholar]</p>	
Optional/General comments	When you are using shortage TPI for the first time please explain what dose it means for non-familiar readers.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
