### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ul style="list-style-type: none"><li>The author stated (After reviewing the literature it can be said that very limited techniques are available for simultaneous estimation of Canagliflozin and Metformin in FDC14)...Although the paper is written in an organized manner with a clear and logical flow. The authors did not talk about any previous studies, though many published papers talked about the same topic. The author introduced his/her paper by talking about diabetics, and the drugs, However, No literature was reviewed in regards to the Canagliflozin and Metformin HPLC validation of the mono drug or the combination!!</li><li>References numbering are not correct</li><li>No discussion was made for the result</li><li>The authors did not clarify the significance of the study to the reader.</li></ul>	
<b>Minor</b> REVISION comments	Author mentioned (The development of diabetes projected to reach pandemic proportion over the next 10-20 years) . I suggest the author clarify based on what he/she has come to this conclusion?	
<b>Optional/General</b> comments
