Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. In discussion section, it was written that 1210 knowledge responses were collected from which 926 responses were analyzed: What about the rest of the responses? Any data cleaning or pre-processing? It should clearly be mentioned. Questionnaires are not given. 2. It should be noted that some significant indication of the research findings. Only analysis of the collected data may not be relevant for this serious pandemic related research. 3. The collected dataset is actually very small to take an informed decision regarding the students' perspective. In fact, the dataset is confined within one University. Need to work more. 4. Instead of cross-sectional study, longitudinal study may be effective. 5. How the current study is significant over the other existing studies? 6. The findings part is well known and it does not require any research. 	
Minor REVISION comments	<p>Spelling mistakes and grammatical errors should be corrected.</p> <p>The education and health programs have aimed to improve knowledge and change students's attitudes toward COVID-19, while also promoting safe practices and optimism.</p> <p>It should be corrected to students'.</p> <p>Many other portions require revisions.</p>	
Optional/General comments	Proper data collection and analysis, indication to new findings should be incorporated.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
