PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none">- Explanatory summary demonstrating the strategy used to obtain data and results.- Well done introduction with recent articles explaining how the COVID-19 pandamia occurred and evolved and its effects in the oropharyngeal region.- Appropriate methodology according to articles published in the last 2 years.- Clear results demonstrating the symptoms most frequently occurring in the oropharynx.- Discussion clarifying how the disease acts in the oropharyngeal region.- The conclusion is in accordance with the objective and theme of the work.	
Minor REVISION comments	I agree with the authors that data collection through electronic questionnaires loses somewhat the reliability of data collection.	
Optional/General comments	Even having problems in obtaining the data, it is a relevant article for informing the lay population and health class in relation to the most common symptoms of the disease and how to relate it to other pathological alterations.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
