PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---|--|
| Compulsory REVISION comments | The article in question brings a current theme well explored by the authors and which can contribute to professional practice, and thus bring benefits to patients affected by the COVID virus 19. | |
| Minor REVISION comments | The subject to be dealt with throughout the article should be more grounded in the introduction part in order to really introduce the reader to what he will find throughout the text. I believe that after explaining the various effects caused to patients affected by Covid 19, the conclusion can be better explored, in order to justify the use of the suggested protocol | |
| Optional/General comments | | |

PART 2:
