

## Review Form 1.6

Journal Name:	<a href="#">Journal of Pharmaceutical Research International</a>
Manuscript Number:	Ms_JPRI_79449
Title of the Manuscript:	Adherence to Pharmacological Treatment and Factors Affecting the Adherence Among Hypertensive Patients Attending Primary Health Care Centers in Jazan, Saudi Arabia
Type of the Article	Original Research Article

### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

### **PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	Drug adherence is affected by several factors besides the authors investigated in this article, such as classes of drugs, the total number of pills, how often the patients have to take medicine, ie q8h, q12h or q24h. Or how often the patients visit doctors. Those factors must be taken into data analysis. It would be helpful for readers if you compare the drug adherence between Jazan and other cities close to sociodemographic status of Jazan, not necessarily in Saudi Arabia but some city all over the world. Is there any impact of Ramadan on pharmacological treatment and adherence?	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
