PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	You can rephrase aim to be; Aim- The present investigation was done to fabricate, manufacture, and evaluate Doxofylline sustained action tablets by using different concentrations of Chitosan and Guar Gum. Results: please kindly recast your result where I highlighted with a yellow colour	
Minor REVISION comments	Introduction: please reconstruct this sentence "the base successful plasma focus" for better understanding. -Please work on your results, they are not well discussed. -I think this should be prolonged action and not "prolong the action" Conclusion: This statement is not clear enough. "also comply all the necessary parameters as per pharmacopeia" .	
Optional/General comments	Simple grammatical errors and spelling mistakes need to be corrected. Revisit the entire manuscript to check for the grammatical errors. I highlighted some of the errors with a yellow print while some others need a reconstruction. I wish you best of luck.
