PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This is a Narrative Review on Open Gingival Embrasures, which was poorly developed and does not add anything new to the subject. In my opinion, it should be better written, improving the description of items in a more robust and detailed way, in addition to the few current bibliographic references, most of which are references with more than 10 years.	
Minor REVISION comments	See the correction suggestions that are highlighted in red in the text and in the comment boxes.	
Optional/General comments
