PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The title of the manuscript is interesting, despite the following concerns. The authors have to address the following major comments:</p> <ol style="list-style-type: none"> 1. Despite the sample size for this study being 355. The way the sample size reached through single proportional formula, what the value of P to reach this sample size. 2. How can you validate the likert scale assessment tool for factors affecting the work life balance of the female healthcare professionals?. 3. The tools internal consistency have to be reported in Cronbach's alpha and interpreted accordingly. 4. What is the baseline to categorize the family size of the participant? 5. Better to remove Valid Percent and Cumulative Percent column in table 1 and 2. 6. The write-up of the discussion is poor, it needs further reconstruction, justification, and implication for each finding. 7. Both of the in text-citation and the bibliography needs further modification per the journal requirement. 8. Most of the background information lacks reference, so it needs revision and modification. The presented in text citation is also mixed type, make it similar. 	
Minor REVISION comments	<p>The title is better to modify as follow</p> <p>"Factors affecting the work life balance of the female healthcare professionals"</p>	
Optional/General comments	<p>The manuscript needs language edition and write up.</p>
