PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>Manuscript requires minor revisions.</p> <ol style="list-style-type: none"> 1) Abstract; Author requires re- presentation of abstract. The definition of hypoglycaemic control should not be in the aim of study. 2) Factors should be summarized like this Factors such as level of education, type of caregiver, duration on therapy, proper education of caregiver, method of passing information --- they should not be scattered 3) Key words; town should not be mentioned as one of key words there are factors with significant effect on glyceimic control that should be picked 4) Methods; No structure for face to face interview was mentioned 5) Results: Repetition of values on the tables in text is excessive and make the work clumsy. Only significant values should be mentioned in the body of work 6) In discussion , personal pronoun should be removed. 	
Optional/General comments
