PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This article deals with an important clinical topic Focusing on mental health stasis of a patient apparently Diagnosed with affective bipolar disorder. It is of interest. However, as currently written and submitted it is not yet Ready for publication. Overall, the manuscript suffers from Significant deficiencies in written English. There are errors In syntax, grammar, and correct use of verb tenses. For example, In several places the authors use verb use in the future tense. The Purpose of a manuscript is to describe, i.e., report on activities or Actions that had already been performed and/or observed, not What is proposed to be analysed or tested. It is imperative that The authors submit and allow their manuscript to be reviewed by Someone knowledgeable in proper English to identify and Recommend where appropriate changes need to be made. After Completion of this task, the manuscript should now be ready for Re-evaluation for editorial review for publication consideration.	
Minor REVISION comments		
Optional/General comments
