PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The authors need to address some general information about sign and symptoms of Mucormycosis (need to include). The authors may include relation of infectivity of Mucormycosis with vulnerable covid-19 patients. Why COVID-19 patients are more prone to get infected with black fungus or other way around?	
Minor REVISION comments	Reference number should be inside the full stop. Some sentences need to be rewritten according to grammar. Spelling correction required.	
Optional/General comments	Overall the manuscript is interesting and informative as covid-19 is still a big problem and major health concern. I appreciate the author's efforts to gather knowledge for COVID-19 and its relation with the concurrence infection with black fungus. This review can be published with minor corrections which I mentioned above.
