PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Language should be simple and review should be detailed. There are number of spacing errors.</p> <p>In the section Benefits of Using Social Media only one article Chan et al. [7] has been cited. When the authors mention We believe ..., We also aggressively ..., are we meant for authors of reference or authors of manuscript. If we meant authors of present manuscript, they should explain their methodology.</p> <p>In the Disadvantages section, I am not sure as how the study of 40,337 children aged 2 to 17 is related with covid related social media.</p> <p>"Misinformation and misrepresentations about COVID-19 are obstructing the act of sound practices, (for example, hand-washing and social distance) and advancing wrong practices that add to the infection's proliferation and, at last, poor physical and emotional well-being impacts." - Is there an evidence as how social media obstructed the fact of hand-washing or social distance?</p> <p>There are other number of questionable statements made without in-depth research basis.</p>
