Type of the Article	

### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journalipri.com/index.php/JPRI/editorial-policy>

### **PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	<p>Dear all,</p> <p>Honestly, I have reviewed the manuscript and I have noticed important notes should be managed.</p> <p>First of all, many paragraphs need reference and I added a note with red colour if authors want to add, and in some topic like Transcranial Magnetic Stimulation use the same reference for a page (refences should added) and the results of writing not combatable with reference in this topic with exaggerated or not necessary using of reference in paragraphs (11-21).</p> <p>Not arranging the explanation of the topics according to their numbering, and this leads to the dispersion of reading, and the loss of the topic with arrangement.</p> <p>Furthermore, the manuscript has incorrect words in writing like childres, a important, and phenomena (I mention it and change the colour to red).</p> <p>Finally, some paragraphs need reformulate and abbreviation and concentrated information. With no explanation about some mentioned topics like acupuncture, behavioral management, physical therapy, and stimulation therapy, and explain topics note previously mentioned like Integrative Medicine.</p> <p>Best regards</p>	
<b><u>Minor</u></b> REVISION comments	<p>Firstly, there are too much errors in distance at writing between words, commas and, points and it would be better to rewrite it again.</p> <p>Furthermore, mention some abbreviation with no previously explained like OMT, Pas and PT. (I recolour it with red).</p> <p>Finally, there are no connection words (linking words) among sentences, otherwise, the section of paragraphs looks less cohesion and coherence without linking words.</p>	
<b><u>Optional/General</u></b> comments	<p>The manuscript has too much in correct using a capital letter in words or must write with capital letters, I mention it and change the colour to red.</p>
