Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none">1. <i>Klebsiella pnneumoniae</i>- species name to be corrected in all places2. Genus and Species name must be according to Nomenclature in the title3. References should be mentioned as numbers instead of names4. Grammatical, typing errors must be addressed5. References must be uniform with respect to font, italics, case sensitive according to the author's guidelines instructions given by the journal6. Figure.2 represents agar plate with disk, but the methodology part states that it was done with the well diffusion method. Clarity must be given regarding the correlation between the method used and the figure depicted.7. In the antimicrobial screening paragraph of Materials and Methods, first line says the method was done by well diffusion method. But the third sentence says disk diffusion method was done based on CLSI guidelines. Clarify the methodology used.	
Minor REVISION comments	Correcting all the grammatical errors and typing errors and references will make the manuscript more appealing.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
