

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_79825
Title of the Manuscript:	A REVIEW ON GENE THERAPY
Type of the Article	Review Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The manuscript describes gene therapy, includes several examples, but when it describes each of them, much information is still lacking. As this is a review, it is necessary to enter more details about the topics covered. The figures have sources from the original article sites. I recommend inserting the author's name and article date in the figure caption instead of using the link.	
Minor REVISION comments	The manuscript needs a language review.	
Optional/General comments	Gene therapy is a current issue, comprising several areas and using different methods. The manuscript is current in showing these aspects. Perhaps because it is a very broad subject, I could add more topics or detail them better.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
