PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments Materials & methods: Results & discussion: Conclusion: References:	The work was well planned and the Author used the statistical tools correctly and skilfully. The results presented were consistently discussed. The conclusions are compatible with the research objectives. References provided good support for the present work.	
Minor REVISION comments	No comments.	
Optional/General comments	The Author presented me with a text of excellent quality and very objective. The correct use of statistical tools and their interpretation guide the work carried out, contributing to its understanding and acceptance. Additionally, the Author was successful in choosing the dosage levels, managing to demonstrate when overdose starts and what its effects on animal health are.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
