Manuscript Number:	Ms_JPRI_79888
Title of the Manuscript:	Impact of glyphosate exposure on glycogen metabolic enzymes in the liver of adult male rats
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only based on '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript, and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Following things need to be addressed by the authors: There is not enough literature given in the manuscript in support of the mentioned work. The authors did not mention any inclusion and exclusion criteria, even though it is critical for any original research. Statistical representation is pan by the look of this right now, same goes for discussion and conclusion. Authors are also suggested to see the referencing in the manuscript, in few areas the style of reference is vague. The manner of writing of the entire paper needs to be rechecked, plenty of grammatical errors are evident.	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
