PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments This is an interesting paper reporting an investigation on animal the in vivo antidiabetic activity of Saccharum spontaneum on STZ induced mice activity.	This is an interesting paper reporting an investigation on animal the in vivo antidiabetic activity of Saccharum spontaneum on STZ induced mice activity.	
Minor REVISION comments In abstract Results need to be reported better (particularly on blood glucose values) , and also conclusion of abstract appear not supported by results. In conclusion Authors declared that "This study highlights the potential of ethanol extract of Saccharumspontaneum in preventing hyperglycemia." Are they sure that ethanol extract is safe for humans ?	<i>Since Saccharum spontaneum</i> was is well known in Arunachal Pradesh, India. I suggest Author to better clarify that is a plant.	
Optional/General comments This article reports an interesting experiment, on animal the in vivo antidiabetic activity of Saccharum spontaneum on STZ induced mice activity. But there are some points that need to be clarified and reviewed
