

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_79896
Title of the Manuscript:	Oxidative effects in streptozotocin-induced male and female mice: the effect of garlic oil and melatonin
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljamps.com/index.php/JAMPS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	It is mentioned that there are 4 groups with 16 mice in each group. That amounts to 64 mice. What happened to the rest of the mice (32)? Also it is not clear how many in each group were males and how many were females. Figure 1 mentions all are male. Kindly clarify It would also be interesting (though not essential) to note if there were any differences between the male and female mice.	
Minor REVISION comments	All abbreviations can be expanded the first time they are used and the abbreviation can be given within brackets (only the first time) Figures 2 and 3 – The titles can be given under each figure for improved clarity.	
Optional/General comments	Minor errors in English and grammar can be corrected (trial instead of trail, etc)	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
