

## Review Form 1.6

Journal Name:	<a href="#">Journal of Pharmaceutical Research International</a>
Manuscript Number:	Ms_JPRI_79931
Title of the Manuscript:	RETINAL DETACHMENT FOLLOWING CATARACT SURGERY
Type of the Article	Review Article

### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalpri.com/index.php/JPRI/editorial-policy>)

### **PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<b>Author MUST get an ethical clearance for this study from a credible Ethics Committee.</b>	
<b>Minor</b> REVISION comments	Author need to state post-operative follow-ups done on the patients, and indicate if there was any sign of microbial infection observed in each case, that may warrant collecting eye samples for microbiological profiling/anti-microbial susceptibility testing, treatment given and the outcomes per patient. There is need to correlate these with the various methods used for the extraction of the cataracts which may be useful in deciding which of the methods of cataract extraction that may be preferred over the others.	
<b>Optional/General</b> comments		

### **PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>  The author of this manuscript should get an ethical clearance for this study from a credible ETHICS COMMITTEE. This is very important because ocular safety of the patient need to be guaranteed.
